

Chicago, IL • Oct. 5-6, 2019

EARN UP TO 12 CE/CME CREDITS**

Symposium

On Disorders of Gut-Brain Interaction (DGBI)

for Physician Assistants, Nurse Practitioners, Primary Care Providers, and All Other Clinicians Treating DGBIs such as IBS, Functional Constipation, Functional Heartburn and more.

A Rome Foundation Continuing Medical Education program

OPTIMIZE YOUR SKILLS IN DIAGNOSIS & TREATMENTS OF DGBIs

Disorders of Gut-Brain Interactions (DGBIs), including irritable bowel syndrome, chronic GI pain and chronic constipation, are the most commonly diagnosed gastrointestinal illnesses in GI. The Rome Foundation interactive symposium will cover the diagnosis and treatment of the most common DGBIs, featuring interactive talks by the world's leading Functional GI experts. Emphasis will be placed on the most prevalent DGBI seen by clinicians, with topics chosen specifically to benefit physicians, nurse practitioners, physician assistants, dietitians and mental health professionals.

PLEASE COMPLETE THE EVENT EVALUATION FORM AND SUBMIT TO THE ROME REGISTRATION TABLE TO RECEIVE YOUR CME CREDIT FORM

*This activity has been planned and implemented in accordance with the accreditation requirements and policies of the New Mexico Medical Society (NMMS) through the joint providership of Rehoboth McKinley Christian Health Care Services (RMCHCS) and Rome Foundation. RMCHCS is accredited by NMMS to provide continuing medical education for physicians.

RMCHCS designates this live activity for a maximum of 12 AMA PRA Category 1 Credit(s)™. Each physician should claim only the credit commensurate with the extent of their participation in the activity.

PROGRAM AGENDA

(Subject to Change)

A Rome Foundation Continuing Medical Education program
